

PAUL KING

Hello! My name is Paul King and I'm a lifelong resident of the Augusta/Rockingham region. My wife Erin is a School Psychologist for the city of Harrisonburg. During summers, she frequents the pool with our two children - Dylan and Lydia - both of whom are dedicated Barracudas. Dylan also swims for both the VAST Gators and the Spotswood Blazers.

I have a Bachelor's in Business Management (with a minor in Accounting) and a second CS-related bachelor's degree from JMU, graduating with honors both times. While in college, I gained experience working full-time as an Assistant Manager in fast food, retail, and service positions. During this time, I also managed the kids' Pokemon and Yu-Gi-Oh! Leagues at Books-A-Million, where I was responsible for wrangling large groups of adolescents and young teens.

More recently, I served for several years on the board of our local Cub Scout Pack 120 as Secretary. I have also volunteered - usually as a timer - in numerous VSL, VAST, and HS swim meets. My family actively participates at Faith Community Church, where I am on the worship team as both a singer and 'the computer guy', and once managed a small Bible study group for a season. Currently, I am a full-time User Experience (UX) Designer and Front-End Web Developer at Jenzabar here in Harrisonburg, working in an Agile team-based environment.

Board positions I am interested in include the Finance and Governance committees, with an emphasis on helping ERRA obtain nonprofit status.

I look forward to serving the ERRA community!
